## Voiceover

Last Modified June 13, 2017

[Share this page](#)

Some people may find it easier to have this website read to them. Windows, Mac OS and Chrome OS all have inbuilt tools that can do this for you.

### Listen to this website with Narrator for Windows 7

Windows comes with a basic screen reader called [Narrator](#), which reads text on the screen aloud and describes some events (such as an error message appearing) that happen while you're using the computer.

### Listen to this website with VoiceOver for Max OS X

In newer versions of Mac OS X there is assistive screen reading technology already built into the operating system called [VoiceOver](#).

### Listen to this website with Spoken Feedback on Chrome OS

In Chrome OS there is a synthesized speech feedback option built into the [accessibility features](#)
